

SAINS "Cybersecurity in 60 Minutes" talk series
"Breaking the Authentication: Brute Force Attacks".

Our first day of attending SAINS "Cybersecurity in 60 Minutes" talk series and today's topic is on "Breaking the Authentication: Brute Force Attacks".

Sarawak Information Systems Sdn. Bhd. (SAINS) collaborates with [PERTEKMA \(Persatuan Teknologi Maklumat FSKTM\)](#) to provide 12 talks starting August 2021 to FCSIT students on their efforts in sharing their knowledge on Cybersecurity. We would like to thank FCSIT Alumni, Teshinia Phang for initiating the discussion between FCSIT and SAINS.

We hope our students will be able to gain valuable skills and knowledge from SAINS.
