Varsity Hackathon 2022

Congratulations to UNIMAS students who participated in the recent Varsity Hackathon 2022 organised by Universiti Sains Malaysia. We are proud to know that two teams took home awards after the competition.

First team led by student Melvin Jangga (Software Engineering, 3rd year), with members Angeline Sambun (Software Engineering, 3rd year), Betsy Pati (Network Computing, 3rd Year) and Michellia Elma (Computational Science, 3rd Year) presented their project Agro Grid and won the Xilnex award, presented by Web Bytes Sdn Bhd.

Second team, participated by students from FRST, FENG and FCSIT. The FCSIT students are Jia Shao and Regan Hung, both 2nd year students taking Software Engineering and the team won 7th place.

Congratulations to all!
