

HOW CLOUD TECHNOLOGY IS CHANGING THE WAY WE WORK AND LIVE?

All Sarawak university/college students & lecturers are invited

The present availability of high-capacity networks, low-cost computers and storage devices as well as the widespread adoption of hardware virtualization, service-oriented architecture, and utility computing have led to exponential growth in cloud service industry in recent years. Cloud computing technology is not only making WFH (working from home) possible, but also profitable for many cloud service providers such as Amazon AWS, Microsoft Azure, Google GCP...etc.

DATE: 27 May 2021, Thursday
TIME: 8:00PM - 10:00PM

AGENDA

- Brief history, definition and principles of cloud computing
- Relate practical cloud services to work and live
- Global examples of IR 4.0 use cases with cloud
- Introduce various cloud career paths for practitioners
- Q&A

Cloud services today are no longer catering for engineers or software developers. This is because cloud learning curve is relatively low due to various advanced cloud computing platforms available today. However, many cloud technology observers are yet to understand how cloud services can help in transforming various industries. This talk will focus on inspiring the audience with the possibility of cloud adoption for Industry Revolution 4.0 (IR 4.0).

SPEAKER: TS. DR. CHENG WAI KHUEN

Cheng is currently an Assistant Professor and Deputy Dean in the Faculty of Information and Communication Technology at Universiti Tunku Abdul Rahman. Cheng has been actively involved in R&D, consultancy and publication in the area of cloud computing, multi-agent system, social networking analysis, Internet of Things, and artificial intelligence. He has over 15 years of experience in distributed and high-performance computing.

Cheng conducted different types of professional training in cloud computing and virtualization technology. To-date, he obtained several professional trainer certifications, such as AWS Certified Solutions Architect - Associate, AWS Certified Cloud Practitioner, Alibaba Cloud Associate - Cloud Computing, Alibaba Cloud Professional - Cloud Computing, Huawei Certified Network Associate - Cloud, etc.
