

INTERNATIONAL DAY OF MATHEMATICS
“Mathematics for a Better World”.
 15TH MARCH 2021
 MONDAY, 2:00PM-4:00PM

Mathematics plays an essential role in almost every expanse of our daily life.
 The importance of Mathematics is evident from the many applications that benefit from it.
 What better way of spreading the love of Mathematics
 if not to start by acknowledging its importance and celebrate the day with UNIMAS

Moderator
Dr Sze San Nah
 Faculty of Computer Science and Information Technology,
 Universiti Malaysia Sarawak

Mathematics for Epidemics
Associate Prof Dr Jane Labadin
 Faculty of Computer Science and Information Technology,
 Universiti Malaysia Sarawak

Mathematics in Big Data
Associate Professor Dr Norma Alias
 Mathematical Sciences Department, Faculty of Science
 Universiti Teknologi Malaysia

International Day of Mathematics " Mathematics for a Better World"

14th March each year is the date chosen to celebrate the international Day of Mathematics (IDM). The date is chosen for this worldwide celebration is due to many countries commemorate Pi Day on that date as they write the date as 3/4 and and it is a fact that the value of Pi is approximately 3.14. This year, the Faculty of Computer Science and Information Technology through their Mathematical-based undergraduate programme, the Computational Science Programme will also join in the celebration by organizing some talks and forum. As this year the date falls on Sunday, the faculty will have the event on the 15th March 2021 virtually via the Webex platform at 1400 hrs (GMT +8)The event will see two speakers namely Associate Professors Dr Norma Alias from Universiti Teknologi Malaysia who will share a talk on “Mathematical for Big Data” and the faculty’s own Associate Professor Dr Jane Labadin who will talk on “Mathematics for Epidemics”The event will end with a forum discussing on the theme of the celebration “Mathematics for a Better World”
