HUAWEI: The Future of Mobile App Industry

HUAWEI and FCSIT would like to invite all faculty students to attend this online talk about HUAWEI Mobile Services (HMS) Ecosystem and its benefits. Speakers will also be promoting their student developer program and upcoming HUAWEI AppsUp Contest that is exciting and has amazing prizes!

All faculty students are highly encouraged to attend as HUAWEI will be offering an intensive 5-week app development program exclusively to UNIMAS students. Do not miss this opportunity to get to know the experts.

We are also proud to have Mr Tan Wei Cong, FCSIT alumnus who graduated in 2017, majored in Software Engineering, in this event.

Meeting link: https://welink-meeting.zoom.us/j/809192490
Date: Wednesday, 9 June 2021
Time: 8pm-10pm

Talk 1: App Industry Insights, HMS Ecosystem, Apps Up Global Contest by Charles Li
Talk 2: Introduce Forum , Codelabs and Training platform, Creation of Huawei ID (Step-by-step) by Tan Wei Cong
Talk 2: HMS Core capabilities & Foundation course,HMS Kits Examples, Foundation Course 5W by Abhishek Parihar

This talk will bring students to have a deep and better understanding of HUAWEI Mobile Services (HMS) Ecosystem that provide developers with all scenario capability openness. Aside from that, they could learn about how HMS Core provides a faster and simpler app development process. We could also help student have a smarter way to achieve APP's efficient development, growth and monetization with all-in-one solution. Our core value also looks for students to get involved in the Huawei Student Developer program. This will help cultivate young talents, ensuring that the tech-savvy and change-resilient young people have the skills and mindsets needed to be the solid foundation of the future. Lastly, we would love toinvite all UNIMAS students to participate in the HUAWEI AppsUp Contest 2021 to win amazing prizes.
