Brief Description:

The discussion begins with the proposed web design for Masjid Taman Desa Ilmu (MTDI) presentation from students led by Mohd Qusyairi. Based on the presentation and feedback from Pengerusi MTDI, Ustaz Tuan Hj Sapiee Hj Sabki, the proposed website is easy to navigate, user-friendly and has a simple design. It also captures the major components that required by the Pengerusi MTDI i.e. to promote and engage its community via activities and projects conducted by MTDI. On the next visit, the students are expected to deliver the functional website of MTDI and transfer the skill to the Pengerusi MTDI for the website sustainability.
