Visit 2

**SL Project:** Introduction of Scratch programming

Time & Date: 2.00pm-3.53pmm, 7th May 2021 (Friday)

7th May 2021, 2-3:53pm. Breakthrough Hub Center visit 2. During this visit the students presented introduction of Scratch programming to the site supervisor. They demonstrated a story telling animation using scratch and game as well. A video tutorial was also been presented. At the end of this visit, the site supervisor will try to set up an scratch account and try by herself first. She will do her own practices before next visit. Due to current shut down of tuition center and internet access issue from the poor families, we train the site supervisor during this visit.
