

# EXXONMOBIL DIGITAL PATHFINDERS SERIES

## ExxonMobil Digital Pathfinders series

**This is your chance to engage with ExxonMobil subject matter experts!**

Every quarter, learn from various speakers who will share how IT, analytics and engineering ensure safer operations, faster decision-making, seamless communication and a lighter emissions footprint in the oil and gas industry.

April 9, 2022 (Sat)

9 am – 11 am

Zoom

### Topics: Control System | Visualization | Data analytics

- Industrial Control System (ICS) to Anywhere
- Introduction to visualization technologies used in ExxonMobil, focusing on assisted reality wearable applications
- Improving operating efficiencies with data analytics & visualization for Heat Exchanger applications

**Harilee Lee**  
IoT Network  
Engineer

**Uzair Suhud**  
Mechanical  
Integrity Engineer

**Hafiz Abd Samad**  
Heat Transfer  
Engineer

**Ilyas Aiman**  
Heat Transfer  
Engineer

Organized by

**ExxonMobil**

In collaboration with

**MDEC** Premier Digital Tech Institution™

Dear Final Year FCSITians [All Programmes]

An exclusive offer for MDEC PTDI partners (of which our Faculty is one)

ExxonMobil is organising a free 2-hour workshop on Saturday 9th April 9:00am-11:00am.  
Topics covered: Control System | Visualization | Data analytics (see poster)

Please apply if you fit the following criteria:

- \* Final year student pursuing Degree in IT, Comp Sc, Cybersecurity, Data Science/Analytics, Engineering (Software, Petroleum, Process-data focused)
- \* Outgoing, assertive and enjoys asking questions and networking
- \* Curious about how IT and analytics can play an integral part in oil & gas industry
- \* CGPA >3.0.

ExxonMobil is looking for 10 student nominations per Faculty.

If you're interested to join, please fill in this form:
